

LTG AEROB®
FILTRATION SOLUTIONS

Aerob Matador AMT 5

Bag emptying filter with integrated ventilator

The unit's design is based on AMT series 1 technology, but **customized for extracting dust from bag emptying processes**.

The compact unit combines a filter with a ventilator and a filler chute and is delivered as a bag emptying filter with the same performance data as the AMT 1.

Technical Data:

LTG AEROB spec sheet 1.08-AMTBR5
