

Aerob Aerstar AAS 3

Silo ventilation filter

Filter bag inserts are removed from the top

The system and functional principle of this AERSTAR model are identical to that of the **model AAS1**. The AAS 3 has no filter housing and is installed into silos or separators. The extracted dust is directly reintroduced to the stored product.

- Weather hood WH
- Clean gas collection hood RH
- Clean gas collection hood with suction pipe

Technical data:

LTG AEROB spec sheet 9.87 / 2405-3
